WEDNESDAY, JUNE 21, 1899.

Gov. McSweeney has reduced the State constabulary force, which will save the State more than \$20,000 a year.

About the only thing President McKinley's Peace Commission seems to have accomplished in the Philippines is a very distinct postponement of peace.

Admiral Dewey will not accept the home which the American people are preparing to give him. He would rather build a hospital for sick and disabled soldiers and sailors.

Mr. W. D. Woods has retired from the editorial control of *The Darlingtonian*, published at Darlington, S. C., and is succeeded by Mr. Louis J. Bristow. Mr. Bristow is an experienced journalist, and will be sure to give his readers a good paper.

The Southern railway evidently is looking for a big increase of business in the near future, having placed orders for twenty-three standard locomotives, 1,000 freight cars and fifteen passenger coaches, all to have the latest improvements and first-class in every respect.

The prolonged season of dry weather in Russia indicates a grain famine in that country and the crops in the other European countries are not up to the average. This prospect for a wheat famine in Russia is causing holders of grain to hope for higher prices. The farmers of the west may have another picnic in prices similar to that of two years ago.

A number of the prominent literary men of the State have inaugurated a plan to establish a Chautauqua on the Isle of Palms, near Charleston. We trust it may be successfully carried out. There is only one Chautauqua in the South, and there is ample room for a few more. The Isle of Palms would be a most admirable location for such an institution.

Last Saturday night at the Tabernacle Baptist Church in Atlanta Rev. Dr. L. G. Broughton, the pastor, made a severe attack upon Jas. G. Woodard, the Mayor of that city, whom he denounced as a "libertine," a "sot," and said he should be impeached. Such personal attacks in a pulpit never accomplishes any good, and is not consistent with the teachings of the blessed Saviour.

The weather Bureau's report, issued Wednesday, says that cotton is doing well in the Carolinas and Georgia, although making slow growth in the last named State. Its condition in Tennessee, Alabama and Mississippi is generally improved, but poor stands are reported from Tennessee and Alabama. In Florida and generally over the central portion of the cotton belt, the crop continues late. In Texas it is well cultivated and growing rapidly, with but few complaints of insects.

The head of the editor of the Kansas City Times is entirely level on the race question. Hear him: "The solution of the race problem is to be found in making life a burden to idle negroes and to whites who use them to gain political ends. Such whites are far more dangerous to the peace and welfare of a community than their black tools. If negroes could get it into their heads that they are disgraced by associating with white men who are satisfied with such association they would know a great deal more about solving their side of the problem."

Congressman Richard P. Bland died at his home near Lebanon, Mo., last Thursday. Mr. Bland had served about twenty-five years in Congress, and was one of the most unique characters in American politics. He was commonly known as "Silver Dick" Bland, and was frequently called the father of the silver cause. He was a typical farmer, in dress, in manners and in his general habits, always simple, unassuming, easily approached, and cordial. At the last Democratic National Convention in Chicago he was a prominent candidate for the nomination for President, and after the nomination of Mr. Bryan could have been nominated for Vice-President, but would not allow his name to be used.

The Penitentiary investigating committee resumed operations again Tuesday, the 13th. Among other things done on the first day letters were read from Senator Tillman and Congressman Latimer in response to letters written them by Chairman Stevenson. Both denied that they could be charged with receiving anything from the penitentiary for which they did not expect to pay, except those things which came in the nature of presents from Col. Neal himself. Cotton seed meal to the value of \$200 is charged to Senator Tillman, who denies that he received it. One of the Penitentiary attaches swears that he shipped the meal to him. The committee has adjourned to meet in Greenville the 1st of August to hear Neal's witnesses.

The population of the United States has reached the round number of 76,000,000, according to the Treasury estimate for June 1. Since the last census was taken in 1890 there has been an increase of 13,000,000, and if the Treasury estimates are correct the census of 1900, to be taken a year from now, will show almost 78 million inhabitants in this country, or twice the population in 1870. In ten years the increase in population has been about

equal to the entire number of people in the country in 1840. The rapid growth of the United States in population has been one of the marvels of the world's history, and it is going on now at a rate that most persons fail to appreciate. Doubling every thirty years, as it has been doing ever since the first census was taken, the United States, if the present rate of growth is maintained, will have over 200 millions of people within the lifetime of many persons now in young manhood.

The Summer School for Teachers.

ROCK HILL, S. C., June 19. EDITORS INTELLIGENCER: I presume the people of Anderson County would enjoy reading something of the great teachers' school now in session at Rock Hill, not for the reason only that it is doing work which is of general interest and of great importance to the whole State, but also because many of our teachers are here, preparing themselves for doing more efficient work in the highest calling of life—teaching boys and girls to live life completely, to sustain the proper relations to their fellowmen, whenever and wherever they meet them.

The school opened Thursday with an enrollment of about 250, but each incoming train brings others, until the dormitories are all filled, and the school-room furniture in some of the parlors and offices. There are now about 350 in actual attendance upon recitations.

Notwithstanding the immense crowd the accommodation is all that could be wished for, indeed it seems there is little more confusion or trouble in handling and providing for the large number than there is in the ordinary family, so perfect is the organization and so adequate are the buildings, and their appointments. No place in the State could have been more suitable for just such an institution, and certainly the teachers could have found no more cordial welcome anywhere.

There are regular recitations conducted in a great many departments, and there is plenty of work, hard work, for all students, but with this one finds some time for social intercourse, and it has been a great place for the renewing of old friendships. We have met many of our old college chums, and find great delight in rehearsing the many pleasant incidents of college life; indeed, some of us fellows feel like we were nothing more (nothing less, I mean, for our wives are not here) than college boys again, and that is the only life we have known, well they are real spry and gay. You would think they had never been cross in their lives; no, not even in school.

The following are the teachers here from Anderson County, with the course taken:

From the Anderson Graded Schools, Supt. Thos. C. Walton, physiography and Victorian notes; Miss Nora Hubbard, primary methods, drawing, physiology, vocal music; Mrs. M. E. Nowell, Victorian poetry, arithmetic, drawing; Miss Emily Diver, physiography, arithmetic, vocal music and drawing; Miss Mamie Harkness, physiography, arithmetic, vocal music and drawing; Miss Zula Brock, physiography, arithmetic, vocal music and drawing; Miss Docia Brock, physiography, arithmetic, vocal music and drawing; Miss Lillie Fant, physiography, arithmetic, vocal music and drawing; J. W. W. Daniel, primary methods, vocal music, drawing and grammar; Miss Fannie Watkins, trigonometry, arithmetic, physiology; Miss Lottie Crosby, physiography, arithmetic and grammar; Miss Margaret Brunson, Greek and Latin; Mr. Herbert Nowell, physics and English; W. B. West, Belton High School, school management, Latin, English and grammar.

John J. McMahan, Superintendent, and Zack McGee, Assistant, are doing all they can for the comfort and profit of their large school. That they are succeeding, every teacher in the building will attest. They have done a grand work for the State in providing for this school. Their efforts are sure to bear fruit. We believe South Carolina will be a better State on account of this opportunity for her teachers.

We have been blessed with refreshing showers. The crops are looking much better, and people are feeling a great deal better.

Our threshermen, Finley & Watson, have made their round, and as a general thing grain turned out very sorry. They will soon be through threshing, much to the delight of the "little fellow" who borrowed a piece of corn bread at the dinner table the other day. Misses Mamie King and Theo. Melton, two of Midway's beautiful damsels, accompanied by Mr. T. M. Melton, paid a visit to Mr. and Mrs. E. A. Shirley last Sunday. Come again, girls.

The many friends of Miss Pet. Finley will be glad to know that she is able to be out again after an illness of a few weeks. Mr. Foster Martin, who has been quite feeble for some time, ventured out last Sunday. It was the pleasure of your humble scribe to attend the Children's Day exercises at Lebanon last Sunday, and if you will permit me space we will try to give your readers a few thoughts of how well everything was carried out. The exercises were opened with a hymn, after which Rev. Mr. Williams led in prayer, which was followed by a short address from the pastor. There were several recitations by young ladies on appropriate subjects, interspersed with songs. One of the most interesting features of the day was the "Facts About the Bible."

The questions asked by the Superintendent, twenty little girls and a few little boys. We must praise this part, for never did we hear so many small children answer so many questions without a break. Rev. V. I. Masters made a short and appropriate address. The collection was taken by four young ladies. The programme throughout was most interesting and impressive, and all who participated did their parts well. Mrs. J. G. Duckworth had charge of the training of the scholars, which accounts for the success of the occasion. Miss Rosa Welborn, one of Lebanon's most charming and accomplished young ladies, had charge of the singing, and this accounts for the school having such melodious music. In short, the Lebanon congregation deserve much praise for the success of the occasion. May the richest blessings of Heaven ever attend the congregation.

Card of Thanks.

MR. EDITOR: We wish to thank the good people of Belton for their kindness and sympathy shown us in the death of our little girl. May they all be rewarded in the end.

J. C. KAY AND FAMILY.
Deering Ideal Ball Bearing Mowers, like ball bearing bicycles, are the lightest running machines made, and their equal is not to be found anywhere. For sale by Brock Bros., exclusive agents.

Breezes from Rocky River.

This month has brought midsummer with her, and the crops are looking fine to not have any more rain than they have had, and now the threshers have visited the grain men, and what more can we do but eat and drink and work? Mr. and Mrs. W. G. Moore spent a few of the last week with relatives in the Nation.

Mr. and Mrs. J. J. Gailey visited relatives and friends in Bowman, Ga., last week.

Mr. R. M. Roe, one of our citizens, while out last week hauling up some wheat, fell off from the loaded wagon and came very near breaking his leg, but we are glad to note is getting along alright at this time.

We are sorry to say that Mr. T. E. Hampton, of this community, is suffering a great deal at this writing with something like Bright's disease, or dropsy. Mr. Hampton is a good farmer, an upright citizen, a kind neighbor, a devoted and affectionate husband and father and a faithful Christian, and we hope he may soon recover.

Miss Sallie Hall, one of our fairest, prettiest and most promising young ladies, who has been attending the Greenville Female College, returned to her home in this place last Friday. She expects to go back when the next session begins in September.

Little Allen, the two-year-old boy of Mr. and Mrs. B. H. Hall, died in this community Saturday, 10th inst., of meningitis, and was buried on Sunday following at this place. Rev. N. C. Wright, conducting the funeral services. This was one of the brightest and sweetest little boys of this section, and was the only boy in the family, and the favorite of its father, the pet and sunshine of the household and the oldest of the family. It is a severe stroke to these fond parents, who will so sorely miss the music of the childish prattle and the pattering of the little feet, and his sweet little winsome ways. Our deepest sympathies are stirred for them, and especially the father, who will most keenly feel the absence of the little one. How hard it is for him to go back to the silent home—from the little mound of earth down in the cemetery beneath which the precious dust has been laid. None but those who have been through it all can fully realize their troubles.

Zarline Breezes.

Merry June, the month of harvesting, is rapidly gliding away, and we hope that some of these troublesome black wheat bugs will disappear with the month.

Quite a number from here will take in the Due West commencement this week. We always look forward to that occasion with much interest, for it is there that many of our old acquaintances, perhaps those we have entirely forgotten, are renewed, brought back to memory.

Last week Mr. Jim Branyon and sister, Miss Leslie, went to Hartwell for the commencement exercises of the Collegiate Institute.

Misses Valera and Florence Clinkscapes, two accomplished young ladies from Moffattville, are visiting the Misses Robinsons.

Miss Ida Bowman, of Lowndesville, is visiting her friend, Miss Rozella Bowen. Miss Ida is a jolly girl and is always welcomed in our community.

Miss Fannie Branyon, of Atlanta, is the guest of the Misses Branyon this week.

Rev. W. P. Moore and wife attended the Greenville commencement last week. Mr. Moore is an old student of Furman University.

Quite a number from the neighboring Churches worshipped at the Little River Sunday. Mr. Moore preached a very interesting and instructive sermon to the little folks.

Mrs. Bell Ables, who has been on the sick list is now convalescent.

Mr. A. Belle, of Due West, was here on business last week.

Miss Cora Shirley, who has so successfully taught the Long Branch school, is now at home for vacation.

Our young people are anticipating quite a nice time at the Sunny Slope picnic on the first Saturday.

Mr. and Mrs. T. J. Bowen have returned from a visit among relatives in the First Creek section.

Rev. Carlyle Branyon, of Hartwell, Ga., is spending this week with his folks.

Alice Items.

Well, Mr. Editor, blackberries are getting ripe, and the little faulty wheat is being threshed, so I reckon we poor creatures will have a little longer.

On the 10th inst. the angel of death visited the home of Mr. and Mrs. Bas. Hall and took their little son, Allen, aged two years. The remains were buried at Rocky River Churchyard, the funeral being conducted by Rev. N. G. Wright, in the presence of a large congregation of sympathizing friends.

Mrs. Elder McMahon and sister, Miss Nellie Hall, of Fairdeal, have been visiting in this community.

Mr. J. T. C. Jones has been attending the United States Court in Atlanta as a witness.

Rev. N. G. Wright will preach at the Institute every fourth Sunday afternoon.

Mrs. E. Adams, of Bowersville, Ga., is visiting her father, W. T. Townsend. The McAdams turkey is the most wonderful fowl we have in this section. She recently hatched nineteen little turkeys at one time and in less than a week's time she was laying again.

Two of our young men evidently have great attraction in the Nation.

Roberts Items.

News is scarce and all you can hear is the cry of hard times. We have been blessed with good rains.

The health of the community is very good, with the exception of a few cases of chickenpox.

Election of School Trustees.

There will be an election in Pendleton Township Saturday, June 24th, from 2 until 5 o'clock p. m., to select three persons to serve on the Board of Trustees for the next two years. The following gentlemen will please act as managers:

Mount Tabor precinct—T. P. Hobson, J. W. Palmer and Steele Barnett. Sandy Springs precinct—M. C. Smith, J. D. McElroy and R. M. Burns.

No ticket will be counted unless three names appear on the ballot. J. W. ROTHROCK, Chairman of Board of Trustees.

MR. EDITOR: Please announce in obedience to the call of Supt. Education, we, the Trustees of Williamston School District No. 8, respectfully ask the qualified electors of said District to meet at White Plains School House on Saturday, June 24th, for the purpose of electing three Trustees for said District. D. J. OWEN, for Board.

MR. EDITOR: Please announce that the election for School Trustees for School District No. 3, will be held at Wilford's Store on Saturday, June 24th, at half-past 3 o'clock p. m. J. J. MARTIN, for the Board.

The Belton Cotton Mill.

BELTON, S. C., June 17, 1899.

A meeting of the subscribers to the Belton Mills was held at this place on last Thursday. R. A. Lewis was made chairman and Lewis D. Beake Secretary. Over three-fourths of the stock was represented in person or by proxy. The proposed capital was found to be over subscribed several thousand dollars. The following board of directors was elected: F. J. Pelzer, Charleston, S. C.; E. A. Smyth, Pelzer, S. C.; R. A. Lewis, Belton, S. C.; R. T. Woodward, Baltimore, Md.; J. T. Rice, Belton, S. C.; A. L. Kelly, Boston, Mass.; and J. Adger Smyth, Jr., Pelzer, S. C. The board met later and elected Capt. E. A. Smyth President and Lewis D. Beake Secretary and Treasurer. A call was made for 20 per cent. of the subscribed capital, payable by July 1st. Car loads of material are being received daily and the work of construction has begun and will be pushed rapidly.

County Sunday School Convention.

The Anderson County Sunday School Convention of the M. E. Church, South, will meet at Bethesda Church Friday and Saturday, July 28th and 29th. All Superintendents of each Sunday School will please have one delegate for every 25 pupils and fractional part over one-half. Superintendents and pastors are ex-officio members. Superintendents will please see that delegates are elected at once and send their names to H. F. Cely, Cely, Anderson Co., S. C.

THE YEARS
COME AND GO!

AND with each successive year there also comes, amidst a flourish of trumpets, the announcement that some new GIN is born, "another Richmond in the field," and every time this announcement is made, it is qualified by another and more important, that either one or more valuable features are patterned exactly like the—

Old Reliable Daniel Pratt Gin.

How many times have you heard that "our Gin is as good as the Daniel Pratt, because we build one a good deal like it." No doubt some Gins are sold on the strength of such assertions, but ask those who have bought and used them if they are the equal of the DANIEL PRATT GIN. But still the years roll on, the Daniel Pratt Gin not only holds its own but continues to add new laurels to those already won.

Our GIN SYSTEMS and ELEVATORS are the most complete and up-to-date on the market. We have in stock at Anderson in our Warehouse six Car Loads of GINS, FEEDERS, CONDENSERS and PRESSSES. Also, all kinds of REPAIRS.

Call on write to
